Don Wagoner
Post Office Box 98
Worcester, PA 19490

Dear Mr. Wagoner:

I would like to take this opportunity to express my thoughts and gratitude for the outstanding, professional job your crews did on the I-95 water crossing for the City of Wilmington. From the beginning, we knew this job would bring its share of problems. This was noted with Enterprise Flasher and the portable barrier. However, your company and sub-contractors did an outstanding job rising to the occasion and completing the project in a timely and accurate manner.

Specifically, I would like to extend thanks to Chris and Mike who did an excellent job leading their crews. Rich's organization and support of Mike was nothing less than top notch. Also, Bob's traffic and safety implementation was outstanding. These men were thorough and professional from the planning stage through every step that led to the final paving. Their work was without complaint or hesitation while doing all things asked of them. In my many years of working for DeIDOT, they are by far some of the best crews I have had the pleasure of working with.

I believe that the City of Wilmington will agree with my evaluation of this task. I will look forward to working with Allan Myers again in the future and wish you well in all your future endeavors.

Sincerely,

A handwritten signature in blue ink that reads "Chuck Leary, Jr." with a stylized flourish at the end.

Chuck Leary, Jr.
Regional Manager
